### **Testimonial Live Vibe Music**

Mental illness Fellowship Australia (NT) engaged Live Vibe Music for the MiTrack Programs (an early intervention program for children with/or at risk of developing mental illness 0-18 years) in Tennant Creek and Alice Springs for the 2018 School Holiday programs.

The results, short and long-term outcomes that Live Vibe achieved were exceptional and inspiring to all involved, the children, the community and the stakeholders.

The songs Tower of Power, Tennant Creek Warriors & Life were written by the children, who were also involved in every step of the process from filming, props, music & production and are a credit to the children and Live Vibe Music.

On child said" *I always thought I was no good for nothing but now I'm a Utube star and I'm too deadly*".

The slideshow or portraits of the children dressing up having fun are truly works of art and these portraits are prized by the children, families and community.

For me, the Children's Interviews where the children talk about the future, their beliefs, culture, what make them happy, sad, scared are the ones that tug on my heart strings and stay in my mind. These interviews are so honest, funny, frank, funny, sad & poignant.

**A must see.**

Live Vibe music quickly developed strong bonds with the children so the children were eager to engage and participate. The children in Tennant creek made a big goodbye sign for Live Vibe- and wrote "*don't leave, buy a house here, come back soon, we love you.*" Their ability to go the extra mile to achieve outstanding result in challenging environments is truly inspiring.

I highly recommend Live Music for any project- they are a professional, compassionate, dedicated and flexible team.
